

## Rotary to feature several new innovative products at Automechanika 2024

**Bräunlingen.** July 2024 - Vehicle Service Group (VSG), a leader in the motor vehicle equipment industry, confirms its presence, together with its flagship brand Rotary, at the 2024 edition of the Automechanika trade fair with a booth in **Hall 8.0 A44**, announcing big news to its customers and partners in terms of product launches.

After the great success of two years ago, VSG returns to Automechanika with one mission - *to surprise*. At the fair, products designed and developed by VSG's R&D team to meet the latest market requirements will be premiered. There will also be products launched in the last two years that have established themselves in the industry as innovative solutions.

### Pit lift - Portal Lift 17 Vario

The innovative Portal Lift 17 Vario represents the ultimate expression of Rotary branded power. It was created with the aim of meeting the lifting needs of buses and other heavy vehicles by effectively combining gripping, lifting and supporting operations. Adaptable to different pit configurations, with no predefined overall dimensions, it allows total flexibility and freedom to work in the pit itself.

### Tyre changer - Kendo.Evo

The power and technology of the Kendo.Evo are made elegant. The Kendo.Evo leverless tyre changer is equipped with a patented mounting tool for effortless mounting and demounting of all types of tyres and rims (standard, UHP, RunFlat). A large storage area can be adapted to the characteristics and needs of the operator.

### A/C charging station - Glaxier

Glaxier is a fully automated service station for recovering, recycling and recharging refrigerant gases (both R-134a and the latest R-1234yf) from car air conditioning systems. Advanced Wi-Fi connectivity allows the machine to automatically update itself, receive remote assistance and connect to other devices such as printers or smartphones.
